**Greater Baltimore Technology Council Honors South River Technologies  
at TechNite**

*Premiere Business and Technology Event Recognizes SRT as a Leader  
and "Small Giant" in the Tech Industry*

**ANNAPOLIS, Md.—October 25, 2007**—South River Technologies, Inc., an innovator in managed file transfer and collaboration software, was honored last night at the 18<sup>th</sup> Annual TechNite presented by the Greater Baltimore Technology Council. The event, held at the Baltimore Convention Center, recognized South River Technologies as one of the regions "Small Giants"—small business leaders in the technology industry. SRT was featured along with 12 other local tech companies in a video montage, showcasing their accomplishments. SRT's technology enables individuals to share and collaborate on mission critical documents through a shared and secured server, eliminating the inherent performance and security problems with sending files by email.

"Companies like South River Technologies exemplify the fact that small businesses can deliver truly world-class products and services," said Steve Kozak, Executive Director of the Greater Baltimore Technology Council. "We're pleased to honor SRT as a 'Small Giant'—a company that's found those ingredients that clearly set them apart from others in their industry."

With more than 55,000 customers in over 110 countries, SRT has established itself as a global leader in the file transfer and collaboration software market. SRT's products are used by thousands of companies and organizations around the globe including the Federal Aviation Administration, U.S. Post Office, U.S. Army, Siemens, Lockheed Martin, MIT and Harvard University.

"SRT is proud to be honored as one of the 'Small Giants' in the region, and we thank the Greater Baltimore Technology Council for this distinguished recognition," said Michael Ryan, CEO and co-founder of South River Technologies, Inc. "We believe that we have excellent products, people and partners, and that has helped us to successfully satisfy a demand for file collaboration and secure transfer products around the globe."

**About Greater Baltimore Technology Council**

The Greater Baltimore Technology Council is devoted to one goal: building and growing the region's tech community. We ask tech companies what they need to grow and provide it through innovative programs. We create forums where organizations can meet,

learn, and do business. And we celebrate the community's successes, spreading the word that technology businesses thrive here.

**About South River Technologies**

South River Technologies is an innovator in secure file management and collaboration software. The company's software allows users to access, manage and share files over the Internet in order to automate and streamline business processes and enhance productivity. SRT's products enhance customers' existing applications by instantly enabling secure access and Internet file sharing within those applications. More than 55,000 customers in over 110 countries use SRT's software to make remote file access and collaboration more efficient for their customers, partners and distributed workforce.
